

Business Environment and Manufacturing Firms' Productivity

Published on October 30, 2018 – Updated on December 9, 2019

Dates

on the October 30, 2018

Focus on Research

In their article published in Applied Economics, Marie-Ange Véganzonès-Varoudakis (CERDI) and H. T. M. Nguyen (KU Leuven, Belgium and OECD Development Center) study in an innovative way the dimensions of the business environment that contribute to the performance of manufacturing companies according to sectors.
